

## WHAT IS IT?

AMR PEMCO's FISH-NET Monitoring System is an outdoor monitoring platform, which determines Dissolved Oxygen (DO) content and temperature levels in ponds, lakes, tanks, or other bodies of fresh and salt water. Capable of monitoring either a single body of water, or two (2) simultaneously, each FISH-NET Control Unit utilizes real-time DO and temperature data to control up to eight (8) outputs for aerators.

Employing wireless communications between the floating buoy(s) and the nearby Control Unit, FISH-NET provides for easy and flexible installations and reliable communications. The Control Unit further offers wireless communications to our unique FISH-NET Software and Master Station. Located at the home or office, the Master Station allows users to remotely view the status of multiple ponds, store data for historical records or trending reports, and receive SMS or email alarm notifications, should values exceed the user-defined set points.

Simply put, whether you own a small, medium, or large aquaculture operation, FISH-NET will reduce operating costs, improve efficiency, and help maintain your ponds and fish.

**FN-2002 Controller**

## FEATURES AND BENEFITS

- Local and remote DO monitoring with aerator control
- Large, touch screen, display for easy viewing in sunlight or from several feet away
- Aerator status and important information available at the controller
- Monitor up to two (2) ponds with one controller and two (2) buoys
- Two (2) temperature sensors, ambient air and water, for improved accuracy and DO calibrations
- DO sensor is mounted above the water for extended life
- Single water sample pump with adjustable time rate (10 Minute Default)
- Dual radios for controller-to-buoy and controller-to-master communications
- Two aeration set points for customized schedules (Day, Night, etc.)
- Sunshield included for improved display visibility
- Optional battery backup for controller and buoys

### *Applications Include*

- Catfish Farms
- Family Farms
- Tilapia Farms
- Treatment Plants
- Shrimp Farms
- Industrial Facilities
- Recreational Lakes

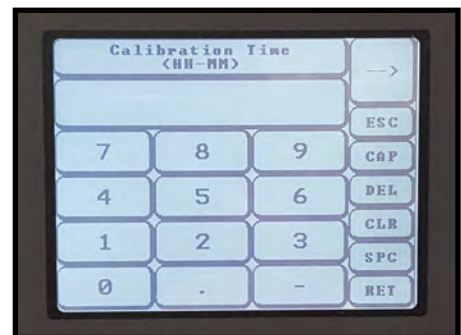

**FN-2001 Buoy**

**Touch Screen with Keypad**

**Pond Detail Screen**

**Virtual Keypad**

### SPECIFICATIONS

<b>Controller Enclosure</b>	NEMA 3R, Powder Coated Steel
<b>Controller Rating</b>	NEMA 4 for harsh environments
<b>Source Voltage</b>	120 VAC
<b>Operating Voltage</b>	12 VDC
<b>Operating Temp</b>	-20 to 70 C
<b>Controller Dimensions</b>	16" W x 20" H x 8"D (40.64 cm x 50.8 cm x 20.32 cm)
<b>Display</b>	1/4 VGA display (320 x 240 pixels) 4096 x 4096 analog touch screen
<b>Standard Feature</b>	Display Sunshield
<b>Keypad</b>	9-key with on/off white LED backlight
<b>Radio Frequency</b>	900 MHz
<b>Input Signals</b>	(2) Water Buoys with DO Sensors
<b>Outputs</b>	(8) for Aerator Motors or other equipment
<b>Lightning Protection</b>	YES
<b>Warranty</b>	12 months
<b>Options</b>	Battery backup for controller and buoys 3-phase power monitor relay Current Transducers (CT's) for Aerators
